

# Semantic Crossreferencing

Jane Doe

November 29, 2013

## 1 Setting up Semantic References

**In a nutshell:** How to set up semantic references? Easy, just use the `omgroup` environment from the `omdoc` package.

## 2 Testing the References

Now, we test the referencing mechanism

**Internal Referencing:** First single references: Section0 and Section1, and then compound ones: Section0 and Section1

**External Referencing:** First single references: [IDC, Section0] and [IDC, Section1]
